Small tots enjoy movements and movements that often go with the lyrics. While there is some variation, typical movements paired with lyrics include twirling hands at each other to imitate bikes on a bus that goes round and around, pretending to honk the horn when the bus horn beeps, and rubbing their eyes in the part where the baby on the bus cries. Many parents and teachers have taken advantage of the meanings of the song for a literal attitude by using The Wheels on the Bus to prepare very young children and facilitate them with the use of public transport which may: seems overwhelming and frightening. The song helps lighten everything that suggests that the experience is a delightful symphony of sights and sounds rather than the frightening overstimulation of the senses. Older children can flex their creative muscles by coming up with their own lyrics to describe things that traditional lyrics may have ignored. Or they can create other versions of the song that play with the same theme, such as describing things that go in the classroom or on the playground. This is an inventive way to use The Wheels on the Bus to keep kids entertained and learning. Copyright © 2012 Meredith Corporation. Corporation.
